what is ihh?

integrated health home

An integrated health home (IHH) is a team of professionals working together to provide whole person, patient centered, coordinated care for adults with serious mental illnesses and children with serious emotional disturbances. The IHH is administered by Medicaid Behavioral Health Care Managed Care Organization (Magellan Behavioral Care of Iowa) and provided by community-based Integrated Health Homes such as Crossroads IHH.

why does it matter?

Behavioral health plays a critical role in an adult and child's ability to maintain good physical and social health. Studies show that adults and children with mental health challenges often experience worse health outcomes than their peers.

the good news

- Many of these adverse conditions can be prevented.

ihh services

The Crossroads IHH provides care coordination, advocacy, and support for you and/or your family. Our team will help you and your family manage your whole health including; physical, behavioral, and social health services.

ihh eligibility

- Enrolled in Medicaid/Title 19
- An adult with a Serious Mental Illness (SMI)
- OR
- Children and youth with a Serious Emotional Disturbance (SED)

SMI diagnoses

Schizophrenia, schizoaffective disorder, bipolar disorder, major depression, or other serious mental health conditions that cause significant impairment in daily functioning.

SED

A diagnosable mental, behavioral, or emotional disorder of sufficient duration to meet diagnostic criteria specified within the most current DSM manual that results in a functional impairment.
